**Subject:** Uber

This is my letter to you asking that you and all commissioner don't waste any more time on approving Uber and Riser and that matter should go through this up meeting and not be but off the people and partners of uber want to and have the right to know if they are broken any law and putting this off anymore is just hurting the people of SC from making a living or getting a safe ride. So my request to you and the other 6 commissioner is to approve Riser LLC and not put it off others states have let and approved it so why can't SC this to me is not about The safety of people in SC but more about Big Taxi business not wanting Uber.

uber is here to stay no matter what cause its on people cell phones as a app and there is no real why to stop it so just and ask all the info at this upcoming meeting and not put it off any more.

I am for Uber and think this matter should be taken care of and let the people of this great state now we are for choice and what people to have a safe ride and for our people to be able to make a living.

No need to keep putting it off pass the 18th of September to checking more into the ORS and everyone has had even time. Now it time to make it right for the people of SC

Thanks  
Dewayne Reagan
